PARTS & ACCESSORIES

BULLETIN NO. 2

December 10, 1946

TO ALL DEALERS (Except in the State of Texas):

Subject: Plastic White Walls and Stainless Steel Wheel Trim Rings

Two accessories, although available as special equipment on cars in production, will find a ready sale to owners of both Kaiser and Frazer cars not factory equipped with these items. Plastic White Walls which fit around the hub cap enhance the beauty of the wheels and give the appearance of white side wall tires. To install, simply remove the hub cap, place ring in position and replace the hub cap.

Or, your owners may prefer the Stainless Steel Wheel Trim Rings to add sparkle to the wheels. Used with white side wall tires or attractively painted wheels as used on the Kaiser and Frazer, the bright Mouldings make a beautiful combination. Permanently attached to wheels in a few moments.

Below we are giving you the necessary information for ordering, together with the suggested list price and net prices:
