BULLETIN NO. 2-B

December 21, 1951

ALL DEALERS:

Subject: KF Recirculating Heater with Defroster - Henry J

In order to meet the continuing demand for a low-priced heater for the Henry J, we are pleased to announce the availability of a recirculating heater to replace Part No. 100238 Heater which is no longer available.

The new heater is equipped with a blade type fan with shutter control for diverting heat through the defroster outlets which are included in the heater package. The heater doors are hinged to deflect heated air in the desired direction. Our tests of this heater in the Henry J indicate the heat output is adequate for normal operating conditions.

It is not intended or should you expect this heater to replace the Henry J fresh air heater and air ducts (Part Nos. 100171-172-173), but only to fill the need for a lower priced unit.

Below we are giving you complete ordering information, together with suggested list and your net prices:

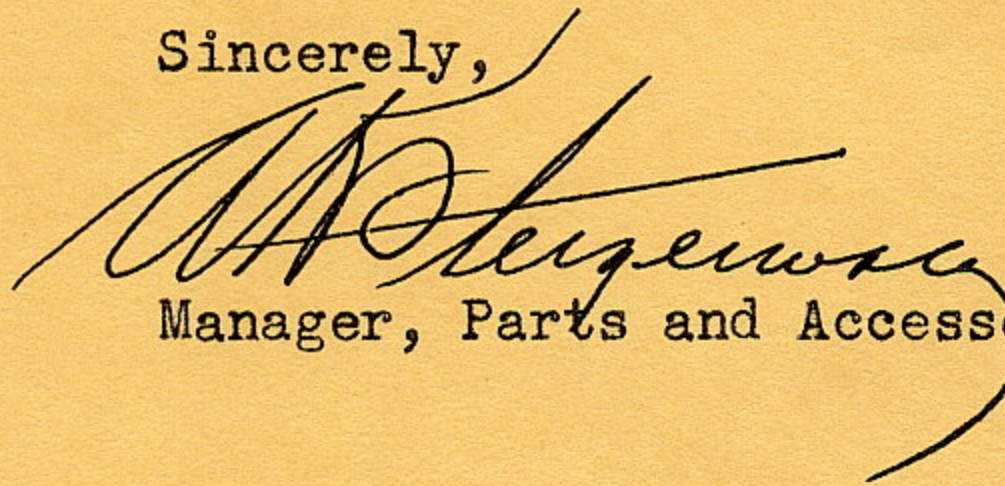

<u>Part No.</u>	<u>Name</u>	<u>Suggested List Price</u>	<u>Dealer Net Each</u>	<u>Dealer 6 or more</u>
100302	Heater - Recirculating with Defroster	\$33.50	\$23.50	\$22.50

PRICES INCLUDE FEDERAL EXCISE TAX AND ARE SUBJECT TO CHANGE WITHOUT NOTICE

Installation time - 1.5 hrs.

Heaters are individually boxed with installation instructions and all attaching parts and shipments will be made promptly from your distributor on your order, which we suggest you place immediately.

Sincerely,

Manager, Parts and Accessories Div.
