PARTS & ACCESSORIES

BULLETIN NO. 3-B

January 4, 1952

ALL DEALERS:

Subject: "KF" Miracle Power Spray and DFG123 Dry Graphite Lubricant

Since announcing "KF" Miracle Power (see Parts and Accessories Bulletin No. 54-A dated October 2, 1951), we have had numerous requests for the companion products - Miracle Power Spray and DFG123 (Dry Graphite Lubricant). Both these products are now available as "KF" Factory Approved Accessories.

Miracle Power Spray is the identical product now being supplied under Part No. 100281 except that it is packaged in a pressurized sprayer can for lubricating the "hard to get at places" such as door hinges, chassis springs, etc.

DFG123 (Dry Graphite Lubricant) is a dry synthetic graphite suspended in a volatile agent - also packaged in a pressurized sprayer can - and is for coating frictional and closely fitted parts before assembly.

Both these items are prepared especially for shop use as you will note from the uses and applications shown on the attached illustrated circular. For this reason, no list prices are being established for either of these items.

Below we are giving you complete ordering information, together with part numbers and your net prices:

<u>Part No.</u>	<u>Name</u>	<u>Dealer Net Each</u>
100296	Miracle Power Spray	\$1.45
100297	DFG123 Dry Film Lubricant	1.95

PRICES ARE SUBJECT TO CHANGE WITHOUT NOTICE

Please place your order with your distributor for your requirements of these new items.

Sincerely

Manager, Parts and Accessories Division
