PARTS & ACCESSORIES

BULLETIN NO. 40

July 29, 1947

TO ALL DEALERS:

Subject: KF Gas Tank Locking Cap - Part No. 200012

We have had several reports from the field to the effect that some difficulty is being experienced in making installation of the KF Gas Tank Locking Cap, Part No. 200012, on some of our cars.

We have found this difficulty to be caused by variations in the depth of gas tank filler neck flange, and we have made a change in the cap to overcome this condition. This change will also make it possible to install the KF Gas Tank Locking Cap on any make of car using a 2 1/4" filler neck, which broadens your sales potential for this accessory considerably.

We are of the opinion that the Gas Tank Locking Caps you may have in stock now can be installed without difficulty, and you can order your future requirements of this accessory from your distributor with full assurance that the revised cap will fit all of our cars.

Sincerely,

Manager
