PARTS & ACCESSORIES

BULLETIN NO. 42

July 31, 1947

TO ALL DEALERS:
(Except in the State of Texas)

Subject: Change in License Plate Frames

To provide easier installation, a change has been made in the construction of our License Plate Frames.

A flange has been added to the lower tube of the frame, which fits in the groove of the lower rail of the license plate bracket. This makes a more rigid mounting, preventing vibration and rattles.

The improved frames, which we now have in stock, are carried under the same part number and resale schedule as formerly.

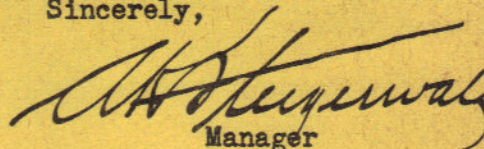

For your convenience, we are repeating below complete ordering information.
