PARTS & ACCESSORIES

BULLETIN NO. 49

TO ALL DEALERS:  
(Except in the State of Texas)

October 1, 1947

Subject: Camshafts - Part Nos. 200113 and 203017.

Please make the following correction and addition to the listing of the Camshaft in Group No. 1.500 on page 5 of the 2nd Edition of the Advance Parts List:

### Correction

Camshaft - Part No. 200113 - Add to the name "For engines with fuel pump at rear".

### Add to Group

Camshaft - For engines with fuel pump at front - Part No. 203017

We have been supplying but one Camshaft - Part No. 200113 - Having two fuel pump eccentrics for use on either the engine having the fuel pump at the rear or the engine with the fuel pump at the front.

In order to provide greater availability and inasmuch as the number of engines built with the fuel pump at the front greatly exceeds those built with the fuel pump at the rear, we are adding to our stock Camshaft, Part No. 203017, to be used exclusively on engines having the fuel pump at the front of the engine. The list price of Part No. 203017, Camshaft is \$14.50 and the net, \$9.43, which prices are subject to change without notice.

Please correct your records to agree with the information contained in this bulletin, and instruct those responsible for ordering parts to order camshafts under Part Nos. 200113 and 203017, depending on the location of the fuel pump on the engine for which the camshaft is required.

Sincerely,

Manager
