PARTS & ACCESSORIES

BULLETIN NO. 58

December 3, 1947

ALL DEALERS:

Subject: Radiator and Heater Hose

With the advance of freezing weather, making the use of anti-freeze solutions necessary, special attention should be given to radiator and heater hose.

Before installing anti-freeze, all hose should be checked for deterioration and replaced when the condition warrants.

To make such service profitable to you, we recently announced the availability of radiator hose in 3 ft. lengths in several sizes (See Parts and Accessories Bulletin #39 dated July 21st) and heater hose in 50 ft. and 100 ft. rolls (See Parts and Accessories Bulletin #47 dated September 23rd) to enable you to profitably service practically all makes of cars and heaters.

For your convenience we are listing below part numbers of the various sizes of radiator hose and also the part numbers of the heater hose:

| <u>Part No.</u> | <u>Part Name</u>                        |
|-----------------|---|
| 202700          | Radiator Hose 1" I.D., 3 ft. length     |
| 202701          | Radiator Hose 1 1/4" I.D., 3 ft. length |
| 202702          | Radiator Hose 1 1/2" I.D., 3 ft. length |
| 202703          | Radiator Hose 1 3/4" I.D., 3 ft. length |
| 202004          | Heater Hose, 50 ft. roll                |
| 202006          | Heater Hose, 100 ft. roll               |

Please check with your Parts Manager to make sure that you have ordered both radiator and heater hose as listed above from your distributor to ensure having both radiator and heater hose during the season when it is most needed.

We are confident you will find that the net prices established for you on both the radiator and heater hose are considerably lower than you are able to purchase it from other sources. Both radiator and heater hose are of excellent quality.

Please check your stock and order your requirements from your distributor today. Prompt shipment will be made.

Sincerely,

Manager
