Subject: KF Windshield "Sealzit"

To fill the need for re-sealing windshields to prevent or stop leaks, we are now able to supply a liquid know as "SEALZIT".

This product is a new plastic base solution which is applied with a medicine dropper along the glass at the edge of the windshield weatherstrip, and flows freely into any crack or crevice which may exist between the glass and the weatherstrip. The liquid in the solution evaporates quickly, leaving the colorless transparent plastic as a permanent seal against leakage. The use of "Sealzit" is not confined to stopping windshield leaks only, but to any leaks where glass and rubber weatherstrips are involved.

As "Sealzit" is highly volatile, it is packaged only in 2 oz. bottles to avoid waste which would occur if the container were left open. This provides a handy size for both shop use and sale to owners as a glass dispenser with rubber bulb for applying it is furnished with each bottle.

Below we are giving you the necessary ordering information, together with the suggested list and net prices:

<u>Part No.</u>	<u>Part Name</u>	<u>List Price Per Bottle</u>	<u>Dealer Net Each Lot of 12</u>
100051	KF Windshield Sealzit (2 oz. bottle)	\$.85	\$.50

Prices are F.O.B. Shipping Point and Include Federal Excise Tax.  
PRICES ARE SUBJECT TO CHANGE WITHOUT NOTICE.

"Sealzit" is attractively packaged for display purposes, and there are twelve (12) bottles to the carton. You should, therefore, order in lots of twelve (12) or even multiples thereof, as orders for broken carton lots cannot be filled.

Actual tests of "Sealzit" under all conditions have demonstrated its effective sealing qualities, and we are pleased to recommend it for the purpose for which it is intended. Its use will, in many instances, save time and expense of replacing and fitting new weatherstrips.

Place your order with your distributor TODAY for your initial stock of this new product. PLEASE, DO NOT SEND YOUR ORDER TO US.

Sincerely,

Manager
