Attached hereto please find Radio Service Data pamphlet (ER-S-231) prepared by the General Electric Company covering the servicing of the Tuning Unit of the KF Radio.

This illustrated pamphlet contains much valuable service data, and in addition on page 6 will be found an exploded view of the Tuning Unit parts and on page 7 a list of these parts giving the catalog number and nomenclature.

Please see that this pamphlet is given to the employee in your organization responsible for radio repairs. These instructions are important and should be carefully followed in servicing the unit for which this pamphlet was published.
