

SERVICE BULLETIN

No. 183
Revised

May 29, 1950

TO ALL DISTRIBUTORS AND DEALERS:

This bulletin contains body paint information for all 1947-48-49-50-51 models and supersedes and cancels Service Bulletins Numbers 183 dated Aug. 15, 1949 and 203.

The Kaiser Frazer Sales Corporation does not stock paint for distribution to the field. Therefore, all orders for paint, requests for mixing formulae or specifications must be directed to the paint manufacturer's jobber in your area.

Body paint code numbers are listed in numerical order together with the color name and the assigned basic color number. Basic color numbers are numerically listed together with the color name and various vendor's identification code number for each paint.

The paint manufacturer's identification code number must be used when ordering or requesting information from the vendors and may be determined as follows:

1. Determine the Kaiser-Frazer paint code number from the body code plate located on the dash panel in the engine compartment of the car.
2. Refer to the numerical listing to find the body paint code number.
3. Determine the basic code number which is shown opposite the paint code number in the listing.
4. Refer to the numerical listing of the basic color numbers to determine the vendor's identification code number which appears opposite the basic color number in this listing and which is the number to use when purchasing paint.

E. N. Rickert
General Service Manager
