When dealing with Code 561, first determine if the car is two-tone green, or gray and blue. Once you are sure of the colors involved, the duplicate code should present no problem as basic color numbers will then be used to determine the manufacturer's codes for the purpose of ordering the paint required.

The following are the paint manufacturers' codes assigned the new colors indicated above:

Basic Color No.	Color Name	Acme		Ditzler		Dupont	
		Proxlin Lacquer	Fleet-X Enamel	Lacquer	Enamel	Duco Lacquer	Dulux Enamel
