	30.600 - INTERIOR TRIM ORDERING TRIM MATERIAL When ordering Trim material be sure to furnish the car serial number, trim code and sample or samples of the trim. Trim material is available in yardage or complete Trim Assemblies. In many cases it is more practical to replace a pleat or section of a seat cushion or back. When ordering material for a repair job of this kind, furnish length, width, also which dimension the stripe or weave should run. Material will be furnished the entire width of the bolt and not less than one-third lineal yard in length. Example: One piece material 12" x 17" to be cut with stripe or nap running the 12" way. Should the material weave run the 12" way or length of bolt, you will receive a piece of material 12" long. Its width will be determined by the width of the bolt.
